02

CHALLENGE

The challenge we decided to address

DELICIOUS!

Inclusivity at Cal Poly

Problem:

- LGBTQ+ individuals face challenges finding safe & inclusive spaces to connect & support one another

Challenge:

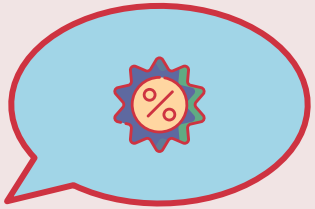
- Develop a digital application for queer individuals to connect & support each other

03

GOALS & SOLUTION

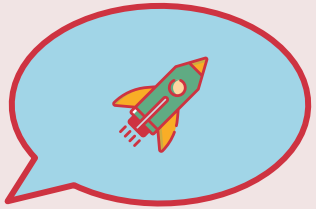
Our approach to the problem and the goals we had for this project

OUR GOALS



INCLUSIVE ENVIRONMENT

Our app is tailored to creating an inclusive environment for users

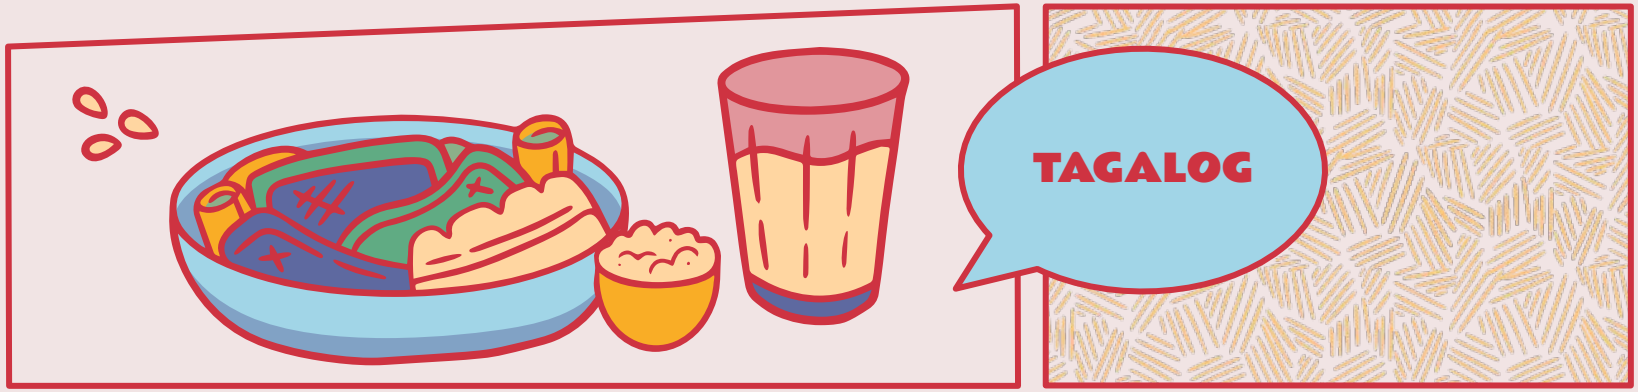


CONNECT LGBTQ+ STUDENTS

Our target demographic is LGBTQ+ identifying Cal Poly students

FOSTER NEW COMMUNITIES

Our app aims to create new communities among the greater LGBTQ+ community

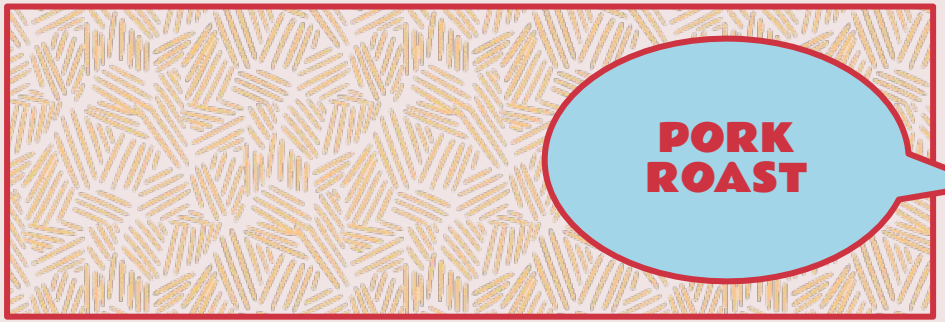


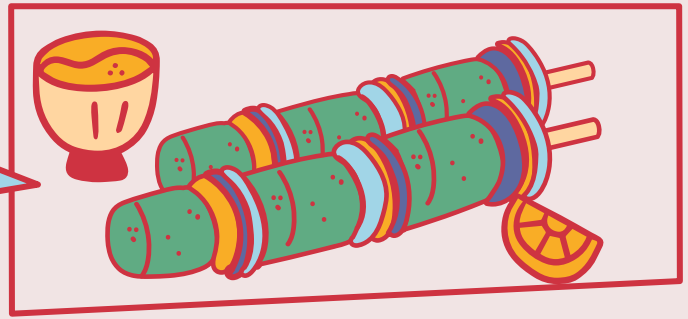
OUR SOLUTION

We created a location-based social connection app that brings together the LGBTQ+ community. The app combines elements of exploration and inclusivity, allowing users to discover and connect with like-minded individuals nearby.

ABOUT QUEER HUNT

Queer Hunt uses a GPS system to locate nearby individuals, where users can meet each other through an interactive map interface. Location points of users within your vicinity will appear in the map interface.



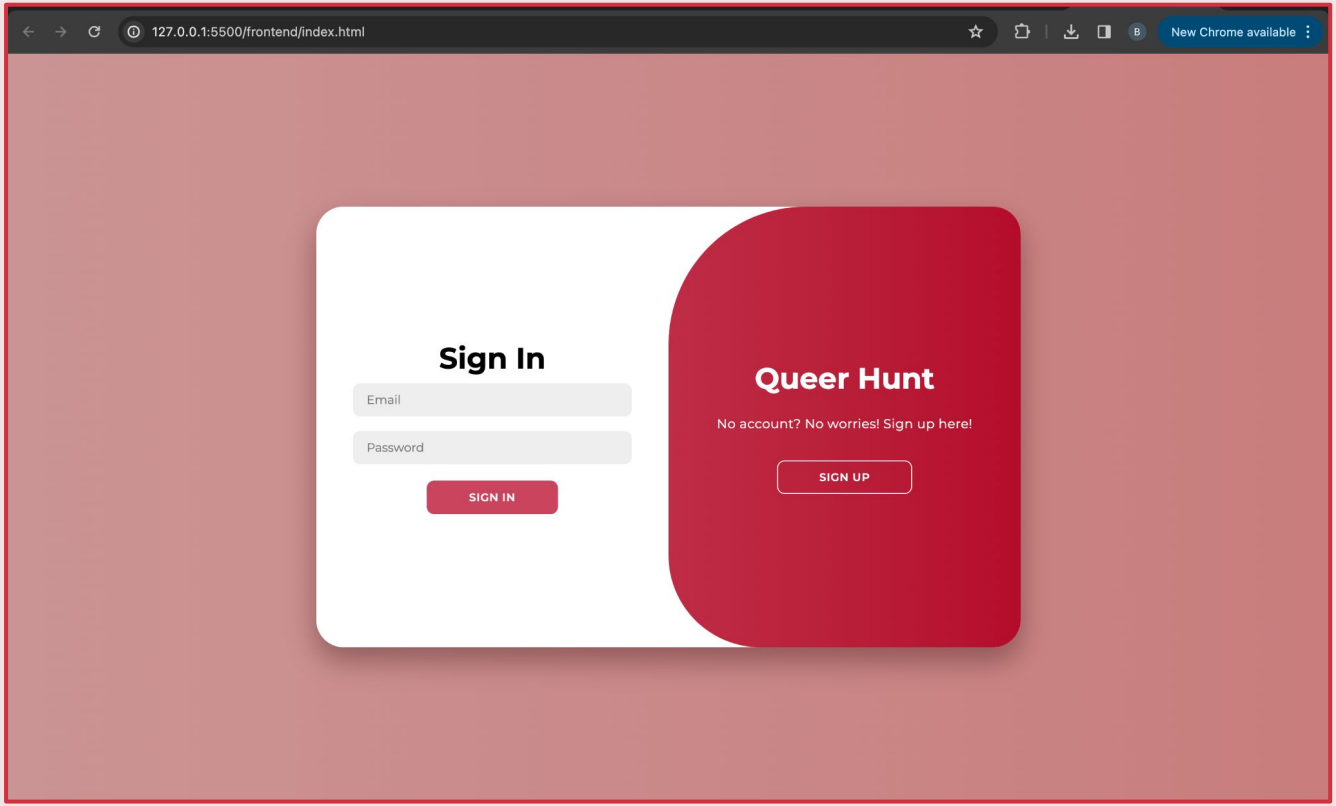


04

APP OVERVIEW

An introduction and demonstration of our app

VERIFICATION & AUTHENTICATION



MAP FEATURE

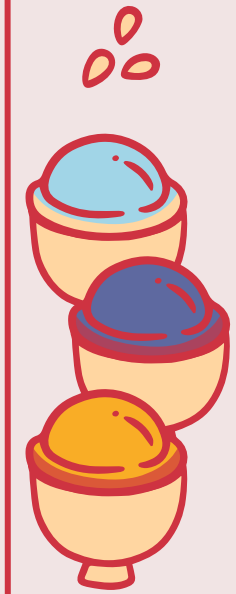
FUTURE PLANS

You can enter a subtitle here if you need it

DELICIOUS!

Future Features!

- Personalizing connections with user information
- “Catching” feature to gamify meeting people (like pokemon go)
- Pride event location coordination
- Limiting users to cal-poly students for security (via Cal Poly email verification)
- Reporting users



THANKS!

DO YOU HAVE ANY QUESTIONS?
